POLICY—

Our policy is to furnish stock fully graded and properly named. Any deviation from this plan will be accidental and we assume no responsibility greater than the invoice amount of the stock involved.

TERMS—

ALL SALES ARE STRICTLY CASH with the one exception of those whose credit has been established in past years. NO DISCOUNTS. Nursery supplies are cash to every one alike.

CLAIMS—

Our responsibility for condition of plants being shipped ends when we make delivery in good order to the transporting companies. Damages inflicted thereafter are to be taken up with the carrier. We will assist when we can help in settling such problems.

Claims for quality of stock must be made within 10 days after date of invoice. LATE CLAIMS WILL NOT BE CONSIDERED.

PACKING CHARGES AND TRUCK DELIVERIES—

Baling, boxing or crating for local freight or express shipments will be charged at cost. No charges are made for bulk truck or car loading.

Deliveries to customers in Dallas on invoices of $50 or over will be made on our truck at F.O.B. Dallas Warehouse prices:

To other destinations where two or more orders are delivered in the same load each customer will be charged proportionately as to mileage and size of his order.

DELIVERY CHARGES PAYABLE AT TIME OF DELIVERY.

ORDERS—

All orders are accepted with the understanding that we are not to be held liable in event of accidents, extremities of weather or other causes beyond our control.

Prices herein cancel all previous listings. We reserve the right to alter prices at any time.

QUALITY LINERS

Only the best of parent stock is used in our propagation of liners. Constant care is exercised throughout the production period and in packing for shipment. This guarantees that our customers receive only the best of plants and that they arrive in first class condition.

No additional charges will be made for packing of liners, when 50 or more of a variety are ordered. For less than 50 of a size, add 10% to amount of purchase.

Bareroot liners are packed in sphagnum moss. Potted liners are removed from clay into paper pots and also wrapped in paper before being crated.

Verhalen liners are grown in deep 2½ in. pots in outdoor beds. Our potted liners do not have to wait for favorable weather to be moved. They are always ready to go. The larger pot means a bigger plant. The outdoor treatment avoids any possibility of shock in transplanting.

JUNIPERS IN ONE-GALLON CANS

CONTAINER GROWN STOCK

The introduction of Container Grown or Canned Plants is relatively new in our Southwest area. Nevertheless its rapid acceptance by the Nursery trade and general public proves its practical value.

Canned Plants are helping in a large way to make the landscape business a year round enterprise rather than seasonal as heretofore. Canned Plants are taking the slump out of salesyards also. An attractive display of plants throughout the summer will pay for the operation of a retail yard and bring profit to the owner as well.

Plants growing in cans can be harvested in any kind of weather. A truck can be loaded without notice of its coming, and the stock moves without loss.

We list our can stock separately for your convenience. All items listed here are also shown under the main list where descriptions are given.
